

The 7 Biggest Red Flags with Contractors & How Clean Air Technologies can Fix Them!!!

- 1.) **You get what you pay for!** They don't charge me a fair price, or will add "Hidden Charges". We include a "Low Price Guarantee" with every proposal. We also have the capability to do a video inspection. We don't use bait and switch tactics thru false advertising. Some companies say that the cleaning is a certain price that only includes the cleaning of the heat vents but by the time they write an estimate to do a complete job the price is the same. The equipment we use is high-powered industrial equipment. Many other companies use small portable equipment (shop vacs) that can't possibly do the service that is being requested.
- 2.) **They don't take time to answer my questions.** We spend a substantial amount of time discussing the procedure in which the work will be done, answering any questions, and we will come to do a free evaluation and quote.
- 3.) **They lack training and experience and may make serious mistake that could jeopardize your family's safety.** All our technicians have been trained vigorously before working without close supervision.
- 4.) **They show up late (or not at all), in dirty ragged jeans, in junky trucks.** First of all, we keep ALL our appointments and we call if even 5 minutes late. Our technicians will arrive in a clean, professional uniform with I.D. badges in newer clean trucks.
- 5.) **They do not have a guarantee and will not return to fix warranty items.** We provide a 100% satisfaction guarantee. We also guarantee "NO MESS". If any problems develop, we will return in 1-2 days to fix the item to your satisfaction. Bill Hussel is always available at 414-429-6164.
- 6.) **They are not available for an EMERGENCY.** But Clean Air Technologies is! Call the office during business hours, or Bill Hussel (Owner) at 414-429-6164 and we will take care of the problem immediately.
- 7.) **They are not true professionals; they work out of their homes and are not in business when you need them.** All of our technicians/ estimators wear company uniforms (No Ragged Jeans!) Most of our customers state that we are the "Most Professional Contractor" they have ever hired and approximately 99% of our customers recommend us. America's Best is not a "part-time" business.
